

PUBLIC NOTICE
NOTICE OF PRE-CONSTRUCTION PUBLIC INFORMATION CENTRE
NORTH CLAIR CREEK AND CLAIR LAKE REHABILITATION

The City of Waterloo is proceeding with the Construction of the rehabilitation work for Reaches 2, 3 and 5 in conformance with the finalized detailed design. Reaches 2 and 3 pertain to North Clair Creek between Erbsville Road and Fischer Hallman Road, while Reach 5 pertains to Clair Lake. (see map)

In 2005, a Class Environmental Assessment (EA) was prepared for Reaches 1 through 5 providing recommendations for rehabilitation works along North Clair Creek and Clair Lake Park. These recommendations focused on improving water quality and reducing channel erosion within the system. In 2009, a Technical Evaluation was performed to determine if the Class EA recommendation of an off-line lake in Reach 5 could satisfy design criteria established by the community and endorsed by City of Waterloo Council. The off-line lake was determined to **not be** technically feasible due to environmental, ecological and social limitations. Through a Class EA Addendum in Reach 5, a conceptual on-line lake with enhanced habitat and improved water quality was proposed and approved by City of Waterloo Council in 2010.

In 2011, the detailed design for implementation of the rehabilitation work within Reaches 2 and 3 of North Clair Creek and of an online pond with enhancements within Reach 5 was finalized and the project is now moving into the construction phase.

The construction sequencing plan and schedule has been prepared and will be available for public viewing and comment.

PRE-CONSTRUCTION PUBLIC INFORMATION CENTRE

At this point in the project (before construction activities begin) all interested parties are invited to attend a Pre-Construction Public Information Centre (PIC) to be held:

DATE – Monday, September 10, 2012

LOCATION NAME – Harper Branch of the Waterloo Public Library

ADDRESS – 500 Fischer-Hallman Road North, Waterloo, ON N2L 0B1

TIME – 4:30 to 8:00 pm

The Pre-Construction Public Information Centre format will be ‘drop-in’ with information displays. Project team members will be available to discuss construction elements of the project and to answer questions.

If you are unable to attend and would like to make your views known, please address your comments to either of the Project Team members below:

Jessica Kellerman

City of Waterloo, Project Manager
