CRITICAL DECISION FOR CLAIR LAKE

Less than one week from now, City Council will be voting on a request from staff to proceed with the \$200,000 detailed design phase of their Off-Line Lake project. We ask that our entire neighbourhood to write letters of concern to council as well as attend this very important meeting to show our support for the On-Line option. Please access our B.P.H.A. website and click on Clair Lake for information on this issue that you can use in your correspondence with the City. (www.bpha.biz)

We believe our entire neighbourhood must mobilize as we have done so effectively in the past when our community was threatened by high rises, student housing, and now the possible demise of our lake. Here are 3 things all of us can do in the next 2 weeks leading up to the October 6th meeting.

Please SEND personal letters to the Mayor, Council, and Staff expressing your views on the importance of the lake and the deficiencies of their plan. These letters should be emailed to the Mayor, Councillors, and City Staff.
